WEEKLY ACTIVITIES

The program is set by the RTX program lead and executed by the RTX administrator. Every event and activity must effectively contribute to the students growth and development. Reverb culture is both taught and experienced through projects given to students during their weekly schedules. Success for RTX would be measured by the total number of students who would be eligible to be hired for staff roles at local churches including Reverb Church. This does not mean that staff jobs are guaranteed to any student upon graduation.

PROGRAMS & SYSTEMS

Students will be required to use the below systems to maximize efficiency and understand the systems used at Reverb Church. There are also some systems added that will enhance the overall RTX experience for each student.

- **Whatsapp** - Reverb Church uses Whatsapp for all voice notes, texts and group conversations. RTX will have two dedicated chats. One for 'church business' conversations and one for casual discussion (e.g. What are we doing for lunch?)
- **G-Suite** - During orientation week, students will be trained on how to effectively use Google docs and how Reverb Church uses them specifically.
- **Honor & Generosity** - Each student will receive a personalized gift after orientation week and after graduation. This is to reinforce and showcase Reverb's value of generosity.
- **RTX VLOG** - Students will be tasked with documenting their experience in a VLOG form. This will be completely led and driven by the students with help and assistance from the RTX program administrator. The VLOG must be a weekly video showcasing the life of an RTX student.
- **RTX Resources** - All program materials such as booklets, books and office supplies will be provided. Students are expected to have a reliable laptop and phone.

STUDENT LIVING

- 1. Housing** - Reverb Church will not be responsible for any housing costs. However, the program administrator will seek to help connect students with potential host families within Reverb Church.
- 2. Stipend** - Reverb Church commits to paying RTX students \$400 per week. Students will be paid as 1099 independent contractors and the stipend is intended to assist with gas, food and other living expenses.
- 3. Transportation** - Reliable transportation and all related costs must be covered by the RTX student. It is a requirement that all students have access to their own personal transportation.
- 4. Work** - We ask RTX students to not work additional jobs outside of the program. RTX is an intensive program that requires full attention and often hours that are out of the norm and would conflict with other jobs. All RTX students must have the legal right to work in the United States. Reverb will not support any US VISA applications.
- 5. Pastoral Care** - For any care concerns or requests, students will have a dedicated program administrator who can assist in such matters.
